Education

Macalester College St. Paul, MN

Bachelor of Arts in Computer Science and Economics | GPA: 3.96/4.0 *Sept. 2023 – May 2027*

Honors & Awards: Kofi Annan & UWC Davis Scholar, Flemming First Generation Scholar, Dean's List

Relevant Coursework: Core Concepts of Computer Science, Object-orientated Programming, Data Structures and Algorithms, Calculus I, Functional Problem Solving, Discrete Mathematics, Principles of Economics

Projects

Developed a Cafeteria Menu GUI Application Using Java April 2025- May 2025

- Collaborated with a team to build a Java GUI for Macalester students to browse, search, and rate cafeteria menus.
- Used a Trie for fast autocomplete search and Jsoup to scrape daily specials from the cafe website. [GitHub Repo]
- Designed an interactive interface with Swing, featuring dietary filters and voting buttons.

Gesture Recognition Algorithm Implementation Using Java February 2025

- Extended starter code to implement an interactive drawing interface with mouse handlers for gesture capture.
- Developed the core 1 dollar gesture recognizer methods, which resulted in accurate recognition. [GitHub Repo]
- Integrated template management and UI feedback to display recognized gestures and scores for better interaction.

Programmed a Productivity Application Using Java April 2024

- Collaborated with a team to develop a multifunctional timer and to-do list application in Java.
- Implemented features like automatic task completion and reset functionality. [GitHub Repo]
- Designed and built an intuitive user interface using Java Swing for seamless interaction.

Developed a Breakout Game March 2024

- Developed a Java Breakout game with paddle control, ball physics, and collision detection.
- Applied object-oriented design, modularizing the game for scalability. [GitHub Repo]
- Improved gameplay with random ball angles, smooth animations, and dynamic bricks.

Recreated the Hangman Game Using Python October 2023

- Developed a GUI-based Hangman game using Python and Tkinter as a final project. [GitHub Repo]
- Implemented word selection, letter guessing, and a visual representation of the game state.
- Gained hands-on experience in debugging, testing, and refining code to exceed project expectations.

LEADERSHIP AND PROFESSIONAL DEVELOPMENT

Campus Center Manager (CCM), Macalester College August 2023-Present

- Supervise the daily operations of the campus center and provide event support
- staff the information desk, and assist with facility management.

Volunteer, Math Tutor at Shahd Organization, Lebanon July 2024

- Tutored refugee children at Wavel Camp in mathematics and led programming workshops, introducing students to Python using the Turtles module to make learning interactive and fun
- Developed communication, leadership, and problem-solving skills, while supporting children with their academic needs.

Volunteer, Social Worker at Verdi Osmijeh Association, Bosnia and Herzegovina October 2022

- Led activities for seniors with special needs, promoting inclusivity and engagement.
- Worked with a team to improve accessibility at the center, ensuring a better environment for wheelchair users. Gained valuable teamwork and communication skills while making a positive impact in the community.

Skills

- **Computer Skills:** Python, Java, Racket, HTML, CSS (beginner), JavaScript (beginner).
- **Language Skills:** Arabic (Native), English (fluent), French (elementary level).
- **Characteristics:** Global Citizen, Motivated and driven, Team-player, Hardworking and Passionate, Punctual and organized.
